

Your self-reported **ethnicity** helps us personalize your reports.

The following concepts may help you understand your reports.

Start

Our reports provide results based on your DNA
and self-reported ethnicity.

1

Provide sample

2

Take ethnicity survey

3

Explore reports

Back

Next

Telling us about your ethnicity is important because certain variants are more common in certain ethnicities.

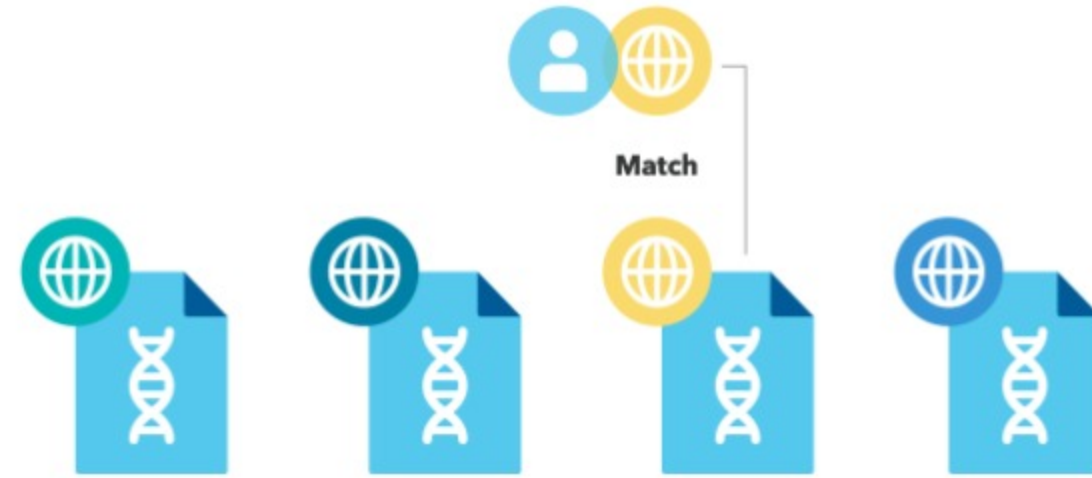

Ethnicities

Back

Next

Many reports explain your results in the context of your ethnicity.

Our reports can provide more detailed information for ethnicities that have been well studied.

Next

By telling us about your ethnicity, you will receive the information that is relevant to you.

Read **your reports** to explore your DNA.

Although self-reported ethnicity information is incorporated into our reports, our reports are not comprehensive for all ethnicities.
